A highly motivated specialist with a growth mindset, eager to learn and contribute to innovative data analysis driven initiatives

EXPERIENCE

APRIL 2024- PRESENT

DATA ANALYST, MNT HALAN, CAIRO, EGYPT

- Developed and maintained advanced SQL and Python scripts to automate and optimize reporting workflows, improving data accuracy and reducing manual effort across operations and finance teams.
- Built and maintained Metabase dashboards supporting strategic decision-making for consumer finance, microfinance, and SME business units.
- Collaborated with McKinsey and Halan's Growth Analytics Team on customer segmentation and cross-selling initiatives, enhancing customer targeting and retention strategies.
- Partnered with KPMG on Expected Credit Loss (ECL) analysis, ensuring compliance with financial regulations and accurate risk assessment.
- Contributed to data modeling projects using SQL, assisting in the design and optimization of data structures to improve query performance and analytical efficiency.
- Participated in two large-scale data migration projects, ensuring seamless transfer, validation, and optimization of queries to enhance system performance and maintain data integrity.
- Designed and launched a 45-day early payment dashboard for the Consumer Finance division, improving visibility into payment behavior and operational performance.
- Led data-driven collaboration across Marketing, Investment, Operations, and Finance departments to align analytical outputs with strategic business goals.
- Responsible for incentive performance analysis of over 20,000 employees across five companies, developing and maintaining KPI-based models in partnership with the Performance Team.

JULY 2023- MARCH 2024

MERCHANT SUPPORT EXECUTIVE, MNT HALAN, CAIRO, EGYPT

- Responsible for responding all merchants' requests to join our network and receiving the necessary documents to create contracts / annexes correctly.
- Responsible for creating accounts on our system to merchants who have signed contracts / annexes and informing the operations team to complete the training and activation process.
- Responsible for following up and solving any problems that faces merchants such as technical and financial problems by answering calls or messages that come from merchants, the operations team and the CC team.
