CAREER SUMMARY (continued...)

Senior Estimation & Proposal Engineer

HIDADA Ltd. | Jeddah, Saudi Arabia | 2014 – 2019

Reporting directly to the Estimation Manager, the Job Duties included;

- During the Bid Time of a Project:
 - Receiving the Job Cost Request (JCR), Developing the Estimation Plan.
 - Studying the Tender Documents (e.g. ITB, BOQs, SOW, Specs, Drawings, Models, etc.) to define the Project's requirements (i.e. Material, Engineering, Fabrication, Protection, Quality, Delivery).
 - Performing the necessary action to clarify any missing information (e.g. Clarification Mails, Conference Calls, Meetings, Site Visits...).
 - Analyzing the Project's Material & Logistic Needs and Coordinating with the Procurement to update the Rates for the same.
 - Coordinating with the associated Departments (i.e. Engineering, Production, Quality, Project Management & Planning) to ensure the Full Compliance to the Project's requirements or to determine the Deviations.
 - Preparing the Project's Cost Estimation & Technical Proposal.
 - Coordinating with the Sales to prepare the Tender Submittals (e.g. Techno Commercial Offer, Compliance Matrix, Delivery Schedule, etc.).
 - Attending to the Customer's Queries during the Bid Evaluation.
 - Supporting the Sales Team throughout the Bidding Stage and till Securing the Order.
- After the Project's Award:
 - Reviewing the Purchase Order (PO) to Accept or Ask-to-Revise it according to what agreed at the order finalization stage.
 - Preparing the Project's Contract Budget.
 - Attending the Kick-off Meeting to ensure the Full Understanding of the Budget by the assigned Project Manager (PM) and the Proper Transfer of the Project Data & Correspondences to the PM and the Associated Departments.
 - Supporting the PM & the Associated Departments throughout the Project's execution time to Control the Cost, Maintain the Project Budget and to maximize the Profit.
- Seniority Duties:
 - Allocating the Incoming Tasks.
 - Providing Supervision, Guidance & Support for the Estimators throughout the Work Processes.
 - Reviewing the Tasks done by the Estimators, prior to Final Approval by the Estimation Manager.
 - Integrating with the Estimation Team for the Continuous Improvement of Procedures, Tools, Templates and Plans to maintain the team at Maximum Performance.
