Address: 12 St. 44, El-Mokattam

Cairo, PO 11585

Contracts administrator with a Bachelor of Science degree in structural engineering. Drafted a design and build contract for a major tram project sponsored by a foreign investment entity and assisted in the evaluation process of 10+ bidding applications submitted by a vast group of industry-leading construction companies. Aiming to leverage a proven knowledge of construction contracts management to positively impact my community, and help accomplish Egypt's vision for addressing infrastructure gaps to improve its standing. Currently looking for an opportunity at a respectable organization in the contracts management field.

EDUCATION

BSc Helwan University, Structural Engineering, July 2021

CGPA: 3.71 (Excellent with Honors - Third on Class).

Graduation Project 1: Design of Reinforced Concrete Structures (Grade: A+)

Graduation Project 2: Construction Project Management (Grade: A+)

CLAC 030: FIDIC Contracts Interpretive Case Oriented Approach, December 2022 (Grade: A-)

CLAC 040: Claims and Disputes in the Construction Industry, April 2022 (Grade: A-)

WORK EXPERIENCE

Contracts Administrator at Egis

October 2021- March 2022

I participated in the documentation of the prequalification and bidding documents for Alexandria Raml Tram project sponsored by EIB and AFD, I was responsible for:

- Applying the client's comments on the prequalification documents for final submittal to the applicants.
- Evaluating the applicants' prequalification applications according to AFD's evaluation criteria; I submitted assessment reports and conducted presentations with the client in order to follow up the prequalification status.
- Communicating with the applicants in order to complete their applications and provide any missing documents.
- Analyzing the consultant services contract signed with the client to determine Egis roles and responsibilities during the contract.
- Drafting the project construction contract based on the standard bidding documents of AFD and FIDIC conditions of contract for Plant and Design Build.
- Conducting meetings with the contracts director to finalize the conditions of contract in accordance with the clients' requirements.

I also provided support to the contracts team in SGTD yard extension project in Doraleh, Djibouti by analyzing claim reports submitted by the contractor and submitted claim draft response letters.

Contracts Administrator at Consilium PMCS (Part-Time)

December 2021- March 2022

I participated in the evaluation and assessment of a major claim submitted by the contractor during the construction of Baheya Hospital at Sheikh Zayed city, I was responsible for:

- Communicating with the project team in order to understand and track back the events that led to the contractor's claim.
- Providing a detailed assessment report to the client for the contractor's claim.
- Preparing a comprehensive presentation for the claim final response.
- Participating in a meeting with the contractor and the client to finally settle down the claim.
- Drafting outsource agreements for Consilium's clients.

CORE SKILLS

- Excellent command of English, able to express any idea without hesitation.
- Understanding of contracts, civil law, claims and construction disputes.
- Solid background and proven knowledge of construction management principles.
- Great coordination and organizational skills.
- Effective presenter with excellent communication, negotiation, and interpersonal skills.
- Confident leader backed up with a high sense of responsibility.
- Excellent academic performance and research ability.
- Problem-solving mentality; interested in coding and automating tasks.
